## Creating a Vision & Project Planning

- Write a wish list of specific wants and needs that you have imagined for your dream project.
- Consider consulting with qualified professionals for design, specifications and construction as needed.
- Consider your role in this new or remodeling project.
- Get competitive bids for your project. Carefully select a builder or contractor that you feel is qualified and you can work with.
- Establish a budget as needed for each section of your project.
- Make it easier to organize and focus your project design ideas:
  - A. Select pictures of the style, look or materials that you find appealing.**  
Consider your role in this new or remodeling project.
  - B. Select pictures of specialized areas like bathrooms and kitchens and storage ideas.**
  - C. Use note paper and blank paper for ideas and layout sketches.**
- Fill out Dahl's Resource Director of places, professionals and retail suppliers.  
Collect business cards.
- Put together a special carrying case for color samples, swatches etc.
- Plan to plan ahead! Electrical, plumbing, heating, water conditioning are best selected during the drawing of plans and specifications.
- Have your plans, ideas, product selections and everything ready to go by the time the slab is poured.
